

Riocath - a novel catheter system

<https://www.iocbtech.cz/project/riocath-novel-catheter-system/>

Riocath came up with a revolutionary construction that is applicable to all tubular medical devices such as catheters, airways, intubation tubes, drains, etc. This unique construction guarantees risk free and gentle application with a significant potential for reduction in subsequent treatment. To learn more about this innovative technology visit <http://www.riocath.com/>
